Upskilling Language Instructors  
for Online Teaching

# A European learning community for the digital education

## Start building on digital education skills today

### OUR PLATFORM

An online platform to connect with other language teachers and learners

Online courses on digital education

Educational resources

### WHY OUR PLATFORM?

In our platform you will find different modules about digital teaching, including online classroom management, remote work or study and life balance and more practical areas such as how to create materials for your students or how to use some of the most relevant online teaching tools.

As well, you will be able to see your progress through the courses and quizzes in your profile. You can have full and free access to our platform just by signing up now!

### COURSE 1

This course is a dynamic user-led framework that allows language teachers to develop, frame, and manage protocols for on-line language teaching. It establishes learning and teaching processes for the teacher and their interactions with their learners.

### COURSE 2

This course is based on the outcomes of online research identifying examples of suitable learning platforms and teaching tools to feature in the curriculum, the teaching content was created for the curriculum. This course includes examples of writing, coding and production of infographics, animation and live action videos for teaching. It establishes learning and teaching processes for the teacher and their interactions with their learners.

### WELL-BEING CENTRE FORUM

This is the place where you can connect other members and interact on the forum, asking questions or suggesting ideas.
